- *Your budget for the tattoo*

You can write to me in both Swedish and English

Descriptions of what to include in your message

•What you would like to get tattooed

If you wish to book a custom piece please be as detailed and precise in your description as possible. Everything you can tell me beforehand will help me bring your ideas to life and to do them justice.

If you don't have a specific idea and would like to give me more creative freedom with the design, that is perfectly fine and wonderful. Just include it in your message.

For larger projects like full sleeves, legs, backs etc. I will suggest that you come into the studio for a coffee and consultation, so that we can talk further about your design and I can answer any questions that you might have about the process.

•Size and placement

This means sharing a rough estimate of the size you wish your tattoo to be in cm. And preferably a picture of the area that you would like to get tattooed with the placement marked.

This also helps me in the designing process to make the tattoo flow better with your body, and even more so if there are any other tattoos to work around.

•Reference pictures

Reference pictures can be anything that you wish for me to have as inspiration when designing your tattoo. It can be a picture you took, or something from the internet or a previous tattoo that I have made that you liked and would like similar elements to.

Sometimes with larger scale projects my client and I have even created a joint pinterest board for inspiration. Anything that you feel will help me understand your vision fully is warmly welcomed. I want the design to feel perfect to you.

•Your budget for the tattoo

If you have a budget for your tattoo that is always good for me to know beforehand.

Tattoos are an investment, so it's important that you feel safe and informed of what your money will get you. A higher budget means we're able to create something larger, usually more complex and detailed. A lower budget is also perfectly fine but will have to be a bit smaller and simpler.

Deposit

When we have talked your design through and everything feels ready to go I will take a deposit of 500kr to book you in. If you need to reschedule your appointment you will not lose your deposit as long as you let me know 7 days beforehand.

If you are booking a custom piece that adds another 500kr for my drawing fee. This includes your entire design and a couple of changes to be made if you wish.

I always send the design 2 days before our booked appointment unless we have decided on something else.

*Just let me know if you have any further questions.
I'm super excited to hear from you!*
